Note: There were 7 riders who were not lapped in the Crit and received their actual chip time (15 total laps by these leaders). So for every lap under 15 that a rider did, the average time for each lap was added to your time. Example: Keith Winchell completed 13 laps/30:36 time. Avg. lap time = 2:31. Add 4:42 (since he was 2 laps down) to receive a fair approx. time compared to those who did 15 laps. So Keith's revised Crit time is 35:18. Typically lapped riders are not included in a stage race overall score, but this creative measure was used so everyone would be counted for their Crit and General Classification (GC) scores.
