**Time Bonuses:** Road Race Finish - Kenny H. (10s), Dane P. (6s), Josh S. (4s)  
 Critierium Finish - Kenny H. (10s), Josh S. (6s), David M. (4s)

**Note:** There were 4 riders who were not lapped in the Crit and received their acutal chip time (15 total laps by these leaders). So for every lap under 15 that a rider did, the average time for each lap was added to your time. Example: David Cunningham completed 13 laps/31:54 time. Avg. lap time = 2:27. Add 4:54 (since he was 2 laps down) to receive a fair approx. time compared to those who did 15 laps. So David's revised Crit time is 36:48. Typically lapped riders are not included in a stage race overall score, but this creative measure was used so everyone would be counted for their Crit and General Classification (GC) scores.
